Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Josh:

I have been mulling over your contributions to our work and it is quite apparent they have been significant. Since your consultantship bills have not exceeded the basic retainer of \$50 per month, I think it would be fair to increase the retainer to \$100 per month. I assume you will have no objections to this arrangement and we will therefore start January, 1956.

All here extend best wishes to you and Esther for a happy holiday season.

Sincerely yours,

BRISTOL LABORATORIES INC.

Joseph Lein, Director
Microbiological Research
